

M1 - Life Sciences and Health - International Track - France

labelisation

Diplôme national de l'Enseignement Supérieur

- ▶ formation initiale
- ▶ formation continue

Durée : 1 an

Présentation

[Consulter la page du Master 1 sur le site de l'Université Paris-Saclay](#)

Programme

Moyenne générale

Block 1: Core courses	12.5 ECTS
- Core courses: Transdisciplinary project	2.5 ECTS
- Core courses: Genes, proteins and cells	10 ECTS
Block 2: Major	20 ECTS
- 1ère UE à 5ECTS en majeur	
1 option(s) au choix parmi 3	
- Methods in neuroscience	5 ECTS
- Workshop on model organisms	5 ECTS
- Biosignaling	5 ECTS
- 2ème UE à 5ECTS en majeur	
1 option(s) au choix parmi 3	
- Methods in neuroscience	5 ECTS
- Workshop on model organisms	5 ECTS
- Biosignaling	5 ECTS
- Masteriales	2.5 ECTS
- Systems Biology I	2.5 ECTS
- 1UE à 2.5 ECTS en major	
1 option(s) au choix parmi 3	
- Cellular economics	2.5 ECTS
- Synthetic Biology	2.5 ECTS
- Workshop on model organisms (AOM)	2.5 ECTS
- Introduction to Biothérapies	2.5 ECTS
Block 3: Minor	12.5 ECTS
1 option(s) au choix parmi 3	
- 5 UEs à 2.5	
- 4ème UE à 2.5ECTS	
1 option(s) au choix parmi 7	
- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 5ème UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 2ème UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 1ère UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 3ème UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 2 UEs 5 et 1 UEs à 2.5	
- 2ème UE à 5ECTS	

1 option(s) au choix parmi 3

- Neurobiology of integrated systems	5 ECTS
- Current Questions in Evolution	5 ECTS
- Development in questions	5 ECTS
- 1ère UE à 5ECTS	

1 option(s) au choix parmi 3

- Neurobiology of integrated systems	5 ECTS
- Current Questions in Evolution	5 ECTS
- Development in questions	5 ECTS
- 1ère UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
----------------------------------	--------

- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 1 UE 5 et 3 UEs à 2.5	
- 2ème UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 1ère UE à 5ECTS	

1 option(s) au choix parmi 3

- Neurobiology of integrated systems	5 ECTS
- Current Questions in Evolution	5 ECTS
- Development in questions	5 ECTS
- 1ère UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- 3ème UE à 2.5ECTS	

1 option(s) au choix parmi 7

- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS

Block 4: Research training

- Scientific project	5 ECTS
- Internship	10 ECTS
