

# M1 - Life Sciences and Health - International Track - France

## labelisation

Diplôme national de l'Enseignement Supérieur

- ▶ formation initiale
- ▶ formation continue

Durée : 1 an

## Présentation

[Consulter la page du Master 1 sur le site de l'Université Paris-Saclay](#)

## Programme

### Life Sciences and Health - International track - France

<b>Block 1: Core courses</b>	12.5 ECTS	
- Core courses: Transdisciplinary project	2.5 ECTS	2.5 ECTS
- Core courses: Genes, proteins and cells	10 ECTS	2.5 ECTS
<b>Block 2: Major</b>	20 ECTS	
- 1ère UE à 5ECTS en majeur		
1 option(s) au choix parmi 3		
- Methods in neuroscience	5 ECTS	2.5 ECTS
- Workshop on model organisms	5 ECTS	2.5 ECTS
- Biosignaling	5 ECTS	2.5 ECTS
- 2ème UE à 5ECTS en majeur		
1 option(s) au choix parmi 3		
- Methods in neuroscience	5 ECTS	2.5 ECTS
- Workshop on model organisms	5 ECTS	2.5 ECTS
- Biosignaling	5 ECTS	2.5 ECTS
- Materials	2.5 ECTS	2.5 ECTS
- Systems Biology I	2.5 ECTS	2.5 ECTS
- 1UE à 2.5 ECTS en major		
1 option(s) au choix parmi 3		
- Cellular economics	2.5 ECTS	2.5 ECTS
- Synthetic Biology	2.5 ECTS	2.5 ECTS
- Workshop on model organisms (AOM)	2.5 ECTS	2.5 ECTS
- Introduction to Biotherapies	2.5 ECTS	2.5 ECTS
<b>Block 3: Minor</b>	12.5 ECTS	
1 option(s) au choix parmi 3		
- 5 UEs à 2.5		
- 4ème UE à 2.5ECTS		
1 option(s) au choix parmi 9		
- Neurobiologie cellulaire et moléculaire	2.5 ECTS	2.5 ECTS
- Introduction to human genetics	5 ECTS	5 ECTS
- Immuno-pathophysiology	2.5 ECTS	2.5 ECTS
- Systems Biology II	2.5 ECTS	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS	2.5 ECTS
- Animal transgenesis	2.5 ECTS	2.5 ECTS
- Epigenetics	2.5 ECTS	2.5 ECTS
- Integrative microbiology	2.5 ECTS	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS	2.5 ECTS
- 2ème UE à 5ECTS		
1 option(s) au choix parmi 9		
- Neurobiologie cellulaire et moléculaire	2.5 ECTS	2.5 ECTS
- Introduction to human genetics	5 ECTS	5 ECTS
- Immuno-pathophysiology	2.5 ECTS	2.5 ECTS
- Systems Biology II	2.5 ECTS	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS	2.5 ECTS
- Animal transgenesis	2.5 ECTS	2.5 ECTS
- Epigenetics	2.5 ECTS	2.5 ECTS
- Integrative microbiology	2.5 ECTS	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS	2.5 ECTS
- 3ème UE à 2.5ECTS		
1 option(s) au choix parmi 9		
- Neurobiologie cellulaire et moléculaire	2.5 ECTS	2.5 ECTS
- Introduction to human genetics	5 ECTS	5 ECTS
- Immuno-pathophysiology	2.5 ECTS	2.5 ECTS
- Systems Biology II	2.5 ECTS	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS	2.5 ECTS
- Animal transgenesis	2.5 ECTS	2.5 ECTS
- Epigenetics	2.5 ECTS	2.5 ECTS
- Integrative microbiology	2.5 ECTS	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS	2.5 ECTS
- 2 UEs 5 et 1 UEs à 2.5		
- 2ème UE à 5ECTS		
1 option(s) au choix parmi 3		
- Neurobiology of integrated systems	5 ECTS	5 ECTS
- Current Questions in Evolution	5 ECTS	5 ECTS

- Development in questions	5 ECTS
- 1ère UE à 5ECTS	

1 option(s) au choix parmi 3

- Neurobiology of integrated systems	5 ECTS
- Current Questions in Evolution	5 ECTS
- Development in questions	5 ECTS
- 1ère UE à 2.5ECTS	

1 option(s) au choix parmi 9

- Neurobiologie cellulaire et moléculaire	2.5 ECTS
- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS

- 1 UE 5 et 3 UEs à 2.5  
- 2ème UE à 2.5ECTS

1 option(s) au choix parmi 9

- Neurobiologie cellulaire et moléculaire	2.5 ECTS
- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS

- 1ère UE à 5ECTS

1 option(s) au choix parmi 3

- Neurobiology of integrated systems	5 ECTS
- Current Questions in Evolution	5 ECTS
- Development in questions	5 ECTS
- 1ère UE à 2.5ECTS	

1 option(s) au choix parmi 9

- Neurobiologie cellulaire et moléculaire	2.5 ECTS
- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS

- 3ème UE à 2.5ECTS

1 option(s) au choix parmi 9

- Neurobiologie cellulaire et moléculaire	2.5 ECTS
- Introduction to human genetics	5 ECTS
- Immuno-pathophysiology	2.5 ECTS
- Systems Biology II	2.5 ECTS
- Functionnal genomics and precision medicine	2.5 ECTS
- Animal transgenesis	2.5 ECTS
- Epigenetics	2.5 ECTS
- Integrative microbiology	2.5 ECTS
- Lipids and membranes in patho-physiology	2.5 ECTS

**Block 4: Research training**

- Scientific project	5 ECTS
- Internship	10 ECTS
