

Life sciences in China

Présentation

Seules les trois premières années sont ouvertes au titre de l'année 2023-2024.

Programme

1ere année

Semester 1

Transversal and languages disciplines

- Comprehensive English 4 ECTS

Biology chemistry

- Introduction to life sciences and health 1.5 ECTS
- Inorganic and analytical chemistry 4.5 ECTS
- Experiments in inorganic and analytical chemistry 2.5 ECTS

Support disciplines

- Calculus (IV) 5.5 ECTS
- Fundamentals of Object-oriented Programming in C++ 2.5 ECTS

Semester 2

Transversal and languages disciplines

- Methodology (I) 1.5 ECTS

Biology chemistry

- Organic chemistry 3.5 ECTS
- Experiments in organic chemistry 2.5 ECTS
- Experiment in general biology (I) 2.5 ECTS
- General biology (I) 4 ECTS

Support disciplines

- Probability Theory 3 ECTS
- Medical physics 4.5 ECTS
- Experiment of physics (I) 2.5 ECTS

2eme année

Semester 3

Transversal and languages disciplines

- PIX digital skills 1.5 ECTS

Biology chemistry

- Chemistry biology : at the origins of life 1.5 ECTS

- Biochemistry (I)	3.5 ECTS
- Experiments in biochemistry (I)	2 ECTS
- Cellular biology	4 ECTS
- Experiments in cellular biology	2 ECTS

Support disciplines

- Thermochemistry	2.5 ECTS
- Structure of matter	1.5 ECTS
- Mathematics for biology (MSV10-I)	1.5 ECTS

Semester 4

Support disciplines

- Bioinformatics	2.5 ECTS
------------------	----------

PPEI (Personal study and integration project)

- PPEI (Personal study and integration project)	2 ECTS
---	--------

Transversal and languages disciplines

- Methodology (II)	1 ECTS
--------------------	--------

Biology chemistry

- Genetics	3 ECTS
- Experiments in genetics	2.5 ECTS
- Microbiology	3 ECTS
- Experiments microbiology	1.5 ECTS
- Biochemistry (II)	3 ECTS
- Molecular Biology	4 ECTS
- Laboratory for Molecular Biology	2 ECTS
- Experiments in biochemistry (II)	2 ECTS

3eme année

Semester 5

Support disciplines

- Mathematics for biology (MSV10-II)	1.5 ECTS
--------------------------------------	----------

Transversal and languages disciplines

- History of science	1.5 ECTS
----------------------	----------

Biology chemistry

- Plant physiology (I)	2.5 ECTS
- Immunology lab	2 ECTS
- Anatomy and physiology	4 ECTS
- Immunology	3 ECTS
- Laboratory for anatomy and physiology	2.5 ECTS
- Virology	3 ECTS

Semester 6

Transversal and languages disciplines

1 option(s) au choix parmi 2	
- French (I)	2.5 ECTS
- Chinese (I)	2.5 ECTS

Biology chemistry

- Principale of gene engineering or another disciplinary	2.5 ECTS
- Plant physiology (II)	2.5 ECTS
- Genomics	3 ECTS
- Introduction to synthetic biology	2.5 ECTS
- Animal physiology (II)	3 ECTS

PPEI (Personal study and integration project)

- PPEI (Personal study and integration project)	2 ECTS
---	--------

Support disciplines

- Bio computing (sequence analysis)	2.5 ECTS
- Optics and radiation	2.5 ECTS

4eme année

Semester 7

Biology chemistry

- Neurobiology or another disciplinary teaching unit	2.5 ECTS
- Regulation of genne expression	3.5 ECTS
- Principle of cell engineering or another disciplinary	2.5 ECTS
- Comprehensive experiments in bioscience	2.5 ECTS
- Stem cells & Regenerative medicine or another disciplinary	2.5 ECTS

Transversal and languages disciplines

- Experimental processes	2 ECTS
- Choix langues	

PPEI (Personal study and integration project)

- PPEI (personal study and integrative project)	2 ECTS
---	--------

Semester 8

PPEI (Personal study and integration project)

- PPEI (Personal study and integration project)	2 ECTS
---	--------

Transversal and languages disciplines

- English for European certification	3.5 ECTS
--------------------------------------	----------

Biology chemistry

- Undergraduate thesis (16w) Chinese and French management	20 ECTS
--	---------
